Contents Volume 137, 2007

Editorial

GEODERMA: A global journal of soil science
J. Bell, J. Chorover, A. Hartemink and Alex. McBratney v

Reviews

Quantitative description of soil organic matter dynamics—A review of approaches with reference to rice-based cropping systems
M.E. Shibu, P.A. Leffelaar, H. Van Keulen and P.K. Aggarwal 1

Cadmium in plants on polluted soils: Effects of soil factors, hyperaccumulation, and amendments
M.B. Kirkham 19

Controversies on the genesis and classification of permafrost-affected soils
J.G. Bockheim, G. Mazhitova, J.M. Kimble and C. Tarnocai 33

Research papers

The role of soil organic matter and short-range ordered aluminosilicates in controlling the activity of aluminum in soil solutions of volcanic ash soils
Y. Yagasaki, J. Mulder and M. Okazaki 40

The effects of DEM resolution and neighborhood size on digital soil survey
M.P. Smith, A.-X. Zhu, J.E. Burt and C. Stiles 58

Determining the composition of mineral-organic mixes using UV–vis–NIR diffuse reflectance spectroscopy
R.A. Viscarra Rossel, R.N. McGlynn and A.B. McBratney 70

Soil solution Cd, Cu and Zn concentrations as affected by short-time drying or wetting: The role of hydrous oxides of Fe and Mn
F.M.G. Tack, E. Van Ranst, C. Lievens and R.E. Vandenberghe 83

Soil particles in agricultural landscapes of a derived savanna in southwestern Nigeria and implications for selected soil properties
F.K. Salako, G. Tian, G. Kirchhof and G.E. Akinbola 90

Impact of salinity on soil microbial communities and the decomposition of maize in acidic soils
J. Wichern, F. Wichern and R.G. Joergensen 100

Soil formation in Wright Valley, Antarctica since the late Neogene
J.G. Bockheim and M. McLeod 109

Zinc sorption–desorption by soils: Effect of concentration and length of contact period
D. Singh, R.G. McLaren and K.C. Cameron 117

Soil variations along a climatic gradient in an Andean agro-ecosystem
F. Zehetner and W.P. Miller 126

Estimating charcoal content in forest mineral soils
V.J. Kurth, M.D. MacKenzie and T.H. DeLuca 135

Reducing capacity of terrestrial humic acids
T. Peretyazhko and G. Sposito 140

Similarity of differently sized macro-aggregates in arable soils of different texture
S.M. Kristiansen, P. Schjønning, I.K. Thomsen, J.E. Olesen, K. Kristensen and B.T. Christensen. 147

Potassium balance as influenced by farmyard manure application under continuous soybean–wheat cropping system in a Typic Haplaquept
R. Bhattacharyya, V. Prakash, S. Kundu, B.N. Ghosh, A.K. Srivastva and H.S. Gupta 155

Effects of soil type and tillage practice on atrazine transport through intact soil cores
J.C. Montoya, J.L. Costa, R. Liedl, F. Bedmar and P. Daniel. 161

Rain acid buffer capacities of alpine forest soils in central Taiwan
S.-Y. Zhuang, M.-K. Wang, H.-B. King, J.L. Hwong and F.S. Hsu 174

Measuring and modelling the soil shrinkage characteristic curve
W.M. Cornelis, J. Corluy, H. Medina, J. Díaz, R. Hartmann, M. Van Meirvenne and M.E. Ruiz 179

Pedogenic processes and soil-landscape relationships in North Cascades National Park, Washington
C.A.D. Briggs, A.J. Busacca and P.A. McDaniel 192

Stabilization of organic carbon in chemically separated pools in no-till and meadow soils in Northern Appalachia
K. Lorenz, R. Lal and M.J. Shipitalo 205

Comparison of enzyme activity with depth under tea plantations and forested sites in south India
S. Venkatesan and V.K. Senthurpandian 212
Oxidation and compaction of a collapsed peat dome in Central Kalimantan
D.M. Kool, P. Buurman and D.H. Hoekman 217
Compaction and mulching effects on soil loss and runoff from two southwestern Nigeria agricultural soils
K.O. Adekalu, D.A. Okunade and J.A. Osunbitan 226
Advances in the acquisition and analysis of CT scan data to isolate a crop root system from the soil medium and quantify root system complexity in 3-D space
M. Lontoc-Roy, P. Dutilleul, S.O. Prasher, L. Han, T. Brouillet and D.L. Smith 231
Comparison of metal release from recent and aged Fe-rich sediments
V. Cappuyns and R. Swennen 242

Review
How strongly can forest management influence soil carbon sequestration?
R. Jandl, M. Lindner, L. Vesterdal, B. Bauwens, R. Baritz, F. Hagedorn, D.W. Johnson, K. Minkkinen and K.A. Byrne 253

Research papers
Evaluation of models to upscale the small scale variability of Cd sorption in a case study
M. Deurer and J. Böttcher 269
Interpreting soil and topographic properties to conceptualise hillslope hydrology
J.L. Ticehurst, H.P. Cresswell, N.J. McKenzie and M.R. Glover 279
Use of the test-mineral technique to distinguish simple acidolysis from acido-complexolysis in a Podzol profile
K. Van Rompaey, E. Van Ranst, A. Verdoodt and F. De Coninck 293
Effects of two soil reclamation techniques on the distribution of the organic N compounds in a ^{15}N labelled burnt soil
A. Castro, S.J. González-Prieto and T. Carballas 300
The sorption of Cd and Zn by different soils in the presence of dissolved organic matter from sludge
J.W.C. Wong, K.L. Li, L.X. Zhou and A. Selvam 310
Hydrological controls on soil redox dynamics in a peat-based, restored wetland
A. Niedermeier and J.S. Robinson 318
Spatial variability of Southeastern U.S. Coastal Plain soil physical properties: Implications for site-specific management
M. Duffera, J.G. White and R. Weisz 327
Geochemical behaviour of Ni, Cr, Cu, Zn and Pb in an Andosol–Cambisol climosequence on basaltic rocks in the French Massif Central
M. Soubrand-Colin, C. Neel, H. Bril, C. Grosbois and L. Caner 340
Applying multivariate methods to soil–solution interactions in carbonate media
C. González, J.R. Quintana, L. Moreno, A. Vázquez, A.L. Lafuente and A. Romero 352
Dye tracer infiltration in the plough layer after straw incorporation
R. Kasteel, P. Garnier, P. Vachier and Y. Coquet 360
Prediction of the penetrometer resistance of soils with models with few parameters
W.R. Whalley, J. To, B.D. Kay and A.P. Whitmore 370
Assessment of soil structural differentiation around earthworm burrows by means of X-ray computed tomography and scanning electron microscopy
S. Schrader, H. Rogasik, I. Onasch and D. Jégou 378
Soil cadmium stabilization using an Iranian natural zeolite
A.A. Mahabadi, M.A. Hajabbasi, H. Khademi and H. Kazemian 388
Comparison of unconfined and confined unsaturated hydraulic conductivity
V. Bagarello, M. Castellini and M. Iovino 394
Land-use history, forest conversion, and soil organic carbon in pine plantations and native forests of south eastern Australia
S. Kasel and L.T. Bennett 401
The consequences of interpolating or calculating first on the simulation of pesticide leaching at the regional scale
B. Leterme, M. Vanclooster, A.M.A. van der Linden, A. Tiktak and M.D.A. Rounsevell 414
Environmental risks of increasing phosphorous addition in relation to soil sorption capacity
O.S. Heredia and A. Fernández Cirelli 426
Relationships of soil properties with Mn and Zn distribution in acidic soils and their uptake by a barley crop
A. Obrador, J.M. Alvarez, L.M. Lopez-Valdivia, D. Gonzalez, J. Novillo and M.I. Rico 432
Fe, Al and Si species and organic matter leached off a ferrallitic and podzolic soil system from Central Amazonia
N. Patel-Sorrentino, Y. Lucas, F. Eyrolle and A.J. Melfi 444
Forms and retention of phosphorus in an illite-clay soil profile with a history of fertilisation with pig manure and mineral fertilisers
B. Ulén and S. Snäll 455
Using neighbourhood statistics and GIS to quantify and visualize spatial variation in geochemical variables: An example using Ni concentrations in the topsoils of Northern Ireland
C. Zhang, C. Jordan and A. Higgins 466
Mineral control of carbon pools in a volcanic soil horizon
I. Basile-Doelsch, R. Amundson, W.E.E. Stone, D. Borschneck, J.Y. Bottero, S. Moustier, F. Masin and F. Colin 477
Temporal variations of rhizosphere and bulk soil chemistry in a Douglas fir stand
M.-P. Turpault, G.R. Gobran and P. Bonnaud 490
Carbon mineralization in an arid soil amended with thermally-dried and composted sewage sludges
J.M. Fernández, C. Plaza, D. Hernández and A. Polo 497

Arsenic biogeochemistry as affected by phosphorus fertilizer addition, redox potential and pH in a west Bengal (India) soil
A. Signes-Pastor, F. Burló, K. Mitra and A.A. Carbonell-Barrachina 504
